

Job Title: React.js Developer

Location: Goregaon

Job Description:

We are seeking a passionate and detail-oriented **React.js Intern (Fresher)** to join our front-end development team. This role is ideal for candidates who are eager to build modern, responsive web applications and gain hands-on experience using **React.js** in a professional environment. The intern will work under the guidance of senior developers on live projects.

Key Responsibilities:

- Assist in developing and maintaining web applications using **React.js**
- Convert UI/UX designs into responsive and reusable components
- Work with REST APIs to fetch and display data
- Write clean, maintainable, and efficient code
- Debug and fix front-end issues
- Participate in code reviews and team discussions
- Learn and follow front-end best practices and coding standards

Required Skills s Qualifications:

- Basic knowledge of **React.js**
- Understanding of **HTML, CSS, and JavaScript (ES6+)**
- Familiarity with components, props, state, and hooks (basic level)
- Basic understanding of REST APIs and JSON
- Knowledge of Git/version control is a plus
- Willingness to learn and adapt in a fast-paced environment
- Good communication and problem-solving skills

Eligibility:

- Freshers or recent graduates in **Computer Science, IT, or related fields**
- Final-year students or candidates with relevant skills may also apply
